

# Hear what Stellus Rx patients have to say about the service we deliver ...

"In five months, my A1c improved from 14 to less than 6. My Stellus pharmacist worked with me to manage my condition—and my medications—to help me live a healthier life."

"Stellus Rx worked with me to help make my medications simpler and more affordable —improving my health so much that I was able to avoid surgery!"

"Stellus Rx connected with my physician directly to find a medication that works better for me...and they made sure it wouldn't cost any more than I was already paying."

# Well beyond, together.

Pharmacy support at every point in your health journey. Stellus Rx is a new pharmacy experience that's opening eyes, hearts and minds to the impact that a pharmacy team can have in changing lives.

# How does Stellus Rx make life better for you?

## Connecting the moments that matter

Our pharmacy team members communicate early and often with you (and, when needed, your provider) to help you succeed in your care plan. We help address:

- Cost concerns and barriers to access
- Medication questions and reluctance
- Clarity for your care plan

## You are known here

Your personal pharmacist takes time to understand you and your unique health needs. We focus on:

- Listening and building trust
- Helping you set and reach your health goals

## Built for your life

To ensure your medications always fit your life, we provide:

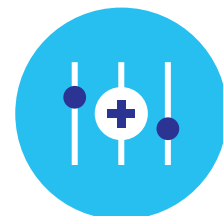

- Pre-sorted and packaged medications
- Delivery to your door
- Multiple ways to communicate with us about your health needs

## Optimizing your health

Your health is dynamic. Your healthcare should be too. That's why we:

- Communicate to your provider to ensure they're aware of any changes in your health
- Work with you to keep your medications aligned with your current state of health

# Expect more and receive more in your care.

### Individual outreach

with a dedicated pharmacist to begin a conversation about your medication plan.

### Coordinated monthly refills\*

keep all your medications synchronized to dispense on the same day each month.

### Monthly check-ins

from a member of your personal pharmacy team to give you another expert ally in your care.

### Pre-sorted and packaged medications\*

make it easy to know which medications to take and when (complimentary service offered at patients' request).

### Pharmacist guidance

delivered when you have questions or concerns about your health or your medication plan.

### Front door delivery

from trusted courier services keep your medications safe all the way to your home.
